March 3, 2023

Dear friends at Nippon Chemical Texas Inc.,

We recently received your donation. Thank you for your support of Armand Bayou Nature Center! As you already know, ABNC is one of the largest urban wilderness preserves in the U.S. with 2500 acres of natural wetlands forest, prairie, and marsh habitats that provide crucial ecosystem services like flood mitigation and water purification. In addition, ABNC is home to more than 370 species of birds, mammals, reptiles and amphibians. We offer year-round educational programs for all ages, hiking trails, live animal exhibits, field trips, Scout programs, birding, and a historic farm, making Armand Bayou one of the most desirable educational and recreational destinations in the state right in the heart of the city.

Through preservation and education, our mission is to **reconnect people with nature**. We could not accomplish that mission without the generous support of friends and partners like you.

With humble and heartfelt gratitude,

Tim Pylate
Executive Director

Thank you so much for your very generous and ongoing support!
